Dear NTLF Member,

Your past support of the National Taxpayers Legal Fund (NTLF) has helped pave the way for the formation of what I feel will become the most effective citizens' group pushing for less government and lower taxes --- Citizens for a Sound Economy (CSE).

As you know, I worked closely with NTLF in 1984 and am now Chairman of CSE which will absorb NTLF's efforts and do even more.

Thanks to your past support we've created massive momentum across America and in Congress for passage of a "Fair/Flat Tax."

I think you'll agree our new name -- Citizens for a Sound Economy -- says more clearly what our organization and goals are all about.

With your continued support and with that of the millions of concerned Americans we hope to reach I feel confident 1985 will be the year Congress will pass a "Fair/Flat Tax."

But we must be careful! Several of the so-called tax "reform" plans being considered by Congress are really nothing more than huge tax increases in disguise. The only real "Fair/Flat Tax" is one which significantly reduces the huge financial burden the federal government places on us taxpayers.

We have hard-hitting programs ready for 1985. I believe that's the year we can also be successful in pushing Congress to turn to free-market solutions, rather than governmental ones, as the way to solve our economic/budgetary problems permanently.

In early 1985 you will be receiving your 1985 CSE Membership Card. In the meantime, I've enclosed a statement for your 1985 Voluntary Membership Dues. I hope you'll help us with an early payment.

Please return your 1985 Voluntary Membership Dues statement with your payment in the enclosed postage-paid envelope.

And thank you for standing with me in our fight for a "Fair/Flat Tax". It's a critical step in getting government off the backs of the hard-working taxpayer.

Sincerely,

Ron Paul
U.S. Congressman

P.S. I'll be talking with the rest of our Board of Directors in the next few weeks to plan our 1985 budget. I'd really appreciate hearing from you right away so I'll know what programs we'll be able to afford in 1985.
